The Comet with a long, dright, fiery Tait, sweeping through the heavens, leaving its dazzling track behind, is a magnificent sight, well calculated to astonish the beholder; but far more glorious is the slow and solemn march of that bright fixed star which sheds upon the earth its sweet and gentle induence—harming nothing, affrighting no one by its glare, but dissensing blessings on its way.—That star is an emblem of the beneficent medical preparations of the celebrated Peters. His Lozenges and his Pills, kis Tooth Peste and his Plasters, are marching through the world with triumphant success—making no enemies, creating no alarm, but quietly dispensing health, ease, beauty, and strength wherever they go. Let the following speak for itself : "New-York, August 16, 1842. "New-York, August 16, 1812.

"Messrs Sands—Gentlemen: Owing to you a debt which money cannot pay, I am induced to make a public acknowledgement of the benefit I have derived from your (to me) invaluable preparation of Sarsa parilla. I was sorely afflicted with a terrible scrofulous disease, hereditary in our family, which commenced on my neck, and, continuing to spread, soon reached my cars, running into my head, and extended all care are face seek arms and lower extremities. extended all over my face, neck, arms and lower extremities. I became a disgusting object to look upon. At times my distress was so great that I was unable to sleep or lie down, and the disease extending into my ears, seriously affected and the diseuse extending into my ears, seriously affected my hearing. My face was one continuous sore, from which a discharge of matter and water kept constantly oozing out. People avoided me, supposing I had the small pox, or some other infectious disease, and I was consequently obliged to relinquish my business. Notwithstanding I had the best medical advice and tried different plans of treatment, the disease continued to graw worse, until I gave up in despair. Fortunately for me, I chanced to fall in with a lady on board a railroad car while raveling for my health, who informed me that her son was at one time in as bad a cendition as I was, and that by using your Sarsaparlila he was speediy cured. I immediately procured the article and commenced using it, and now, after having taken less than six bottles, I am well and able to attend tomy business. I send you this statement as an act of justice, only hoping it may laduce the afflicted to make use of the right medicine, and thereby save themselves much suffering and expense. thereby save themselves much suffering and expense.— Those wishing to learn farther particulars concerning my case will find me at No. 207 Greenwich-street, where it will afford me great pleasure to communicate any thing in rela-

the finances of this State. State Fives have been selling for 35 and 35-quite as much as they are worth, when we remember that not a dollar of the August interest has yet been paid. A hope still exists in the minds of many capitalists, that something will eventually be done. Serious apprehen-sions are expressed in some quarters as to the prospect for the winter. Affairs are bad enough in all conscience; but it the winter. Affairs are lad enough in all conscience; but it is not worth while making them worse they are. Our crops were never more abundant, the debts of private individuals were never smaller in the aggregate, the banks discount good business paper readily, and have immense sums on deposite. These are favorable signs, and could we only get any thing like proper legislation at Washington, the prospect would speedily brighten.

Nothing new as relates to the banks of Philadelphia. The suspended institutions are the U. States Bank the Schuylkill, the Girard, the Bank of Pennsylvania, the Mechanics' and Manufacturers,' the Moyamensing and the Bank of Penn Township.

The St. Louis New Era complains of the hard times. cays: Each successive week kas a direct tendency to tighten the money market, and it is now almost impossible to effect transactions of any magnitude. We have no longer any representative of trade; specie is not to be had—notes of the Bank of Missouri are charily issued, or if put out are withheld from general circulation-and in all out door transactions City and County money alone is used, and unfortunately enough of this is not to be found.

To be Fublished, MONDAY, 5th September, 1842, a new Paper, to be called "THE NEW-YORK CARD, AND COMMERCIAL AND PROFESSIONAL ADVERTISES," by Peter P. Good, No. 133 Fulten-

street, New-York. PROSPECTUS. This Paper is intended to be devoted exclusively to the interests of those who order their Cards printed at the New-York Card Factory Press, for cheapest printed Cards, (Office No. 138 Fulton-street, New-York,) and in this respect differs in its character from every other publication whatever.

The Proprietor of this Establishment, would make see of

The Proprietor of this Establishment would make use of this means to express his thanks for the very liberal encour-agement he has received in the several cities of New York, Polladelphia, Baltimore and Boston, and notwithstanding the precarious times, untoward circumstances and unyielding opposition he has experienced, he is determined more effectually than ever to promote the interests of his customers by this novel and gratuitous undertaking.

The New-York Card and Advertiser is offered to the Commercial and Professional Community, not only as the cheapest and best vehicle for advertising in the world, but

also as an important inducement to the rublic to patronize the Card Factery Press for chapest printed Cards, being the establishment among the first which originally reduced the price for printed Cards to its present standard, and which, if well supported, will most effectually establish the present very low rates and prevent every species of mis-representation, deceit and 'raud, to enhance the price and The Proprietor proposes to publish not less than One

Hundred Thousand copies of the Card, of which each person or firm who orders their Card printed as above, will be entitled to one Copy, and the remainder will be distributed throughout the United States in the following manner: To Hotels, Boarding-Houses, Steamboats, Railroad Cars, and public places of resort, altogether gratuitously.* Exclusive of the copy of the Card to which our friends are entitled in consequence of their orders, a proportionate number of insertions will be included according to the following table:

One insertion for any number of Cards ordered less than 50%.

Two insertions for 500 Cards, or any number ordered less than 1,000; and Four insertions for 1,000 Cards, or any larger number.

The Paper will be published weekly, and thus the com-

bined attractions of this novel, gratuitous, and popular Work, will be positively unequalled. In fact, to all who have our Commercial and Professional interests at heart, who love to see the Country and its People excel all others, it affords an opportunity for public notociety through the tendency of your patronage, unprecedented in the annals of subligations.

To our friends who do not use Cards, and who would wish to advertise with us; our terms for each advertisement of Ten lines or less, (over six) first insertion, are 25 cents: and for each subsequent insertion, 124 cents; and for four inter-tions, or one month, 50 cents. Longer advertisements at equally favorable rates.

Persons wishing to avail themselves of the Post-office re-

Persons wishing to avail themselves of the Post-office regulations in regard to Newspapers, can be supplied with any number of copies at 59 cents per 100.

At this particular period, when the minds and attentions of almost every one are simultaneously and judiciously devoted to the improvement and advancement of our Commercial and Professional interests—at this period, when our whole community are acutely sensible to the real and intrinsic interests of this grand and vast Country, the Proprietor would conclude that the success of this Work can but be viewed with a degree of interest commensurate with its importance. At a period when so many exciting bubbles importance. At a period when so many exciting bubbles have burst, and unprofitable and visionary speculations have ruined numerous of our worthy citizens and their families—at a period when it has been satisfactorily ascertained that he true riches of a Country are in her internal resources, and her lappiness and presperity wholly vested in the do-mestic industry of her sons—none can possibly feel indiffer-ent to the Commercial and Professional interests of our happy land, in which her paramount strength and aggran-dizementare centered, blessed as she is with a delightful climate, a vast territory of rich soil, and an active, enlight-

mate, a vast territory of rich soil, and as active, enlight-ened and enterprising race of men.

* The Proprietors of public places of this description are respectfully requested to exhibit this Paper as publicly as possible, and with a view to obtain this purpose effectually, the Publisher proposes to devote one column of the Paper to their interests, and thus render this notoriety mutually advantageous.

PROM MRS. NANSCAWEN.

Doct. Thomson—Sir: I have been in a feeble state of health for the past eight years, having been afflicted with a bail cough, pain in the side and stomach, and other female weaknesses too numerous to mention. I have at various times been under the attendance of ten regular Physicians, several of whom have given me up as incurable. I have continued to linger in a feeble state of health until a few days past, when I put myselt under the care of Dr. Thomson, No. 343 Broome street, and at this date consider myself in a better state of health than for the past eight years. I do not feel any pain, distress, or inconvenience, from any disease whatever. I am surprised when I think of the rapidity with which I have improved while under his care. I have also withessed with surprise the rapid improvement of several other patients, whose diseases appeared as obstinate as my own, under the Doctor's care.

We most positively declare their statement to be incorrect for more beside ourselves are, or can be, acquainted with the ingredients which compose the gennine "Fahne stock's Vermifuge," unless indeed our Vermifuge has been transferred into bottles marked Kolmstock, which may have been done to some extent to give it a character, as Messrs. He will give his attention to the sale of Real Estate, tocks, Bonds and other securities, Furniture and Out-Door

It is believed that the selling of Stocks by auction as a regular business has never been attempted in this city. In Boston and other cities most of the stocks are disposed of at public sale. This mode of transacting business presents ad-vantages over the present custom. At auction sales the dealers in stocks can always be present and judge for themelves whether the sales are fairly conducted or not, a privi-

selves whether the sales are larry conducted or not, a privi-lege of which they are now deprived.

The seller will have to pay no more commission than the regular brokerage, and the purchaser will by attending to the sale save the amount of a brokerage.

The numerous kinds of stock offered in this market that are not quoted on the books of the brokers, and therefore are rendered unsalable, will by the adoption of this plan canble the holder to present them favorably before the pubenable the bolder to present them favorably before the pub-lic through the advertisement of the aucijoneer. au20 R.
